San Diego Unified School District

Policy Manual

I. Introduction

It is the mission of the San Diego Unified School District to improve student achievement by supporting teaching and learning in the classroom. In order to achieve this mission, the Board of Education establishes policies and procedures.

Procedures are specific, detailed rules that put policy into practice; they tell how, by whom, where, and when things are to be done, giving step-by-step instructions and assigning specific responsibility. Administrative procedures set forth specific requirements and details that implement and enforce policies. The Board of Education has delegated to the superintendent administrative responsibility for the development, maintenance, and dissemination of district procedures. Administrative procedures are contained in the four-volume set of *Administrative Procedures* and in the *Emergency Procedures Handbook*. Manuals and individual procedures are available from Administrative and Legislative Services, Office of the Superintendent. An *Alphabetical Index* to the administrative procedures is published annually by Administrative and Legislative Services. All administrative procedures are available on the district's web site at <http://www-internal.sandi.net/policy/>. The procedures are viewable and printable in Adobe's (.pdf) format.

Policies are principles adopted by the Board of Education to chart a course of action; the board specifically is charged with this responsibility. District policy statements are presented in Section II of this document, followed by an index to these policy statements. The policy manual is available in both Adobe's portable document format (.pdf) and Hypertext Markup Language (.html) on the district's web site at <http://www-internal.sandi.net/policy/>. The document is fully searchable in this format.

The Board of Education is responsible and accountable for effectively governing the school system. The primary means by which the board exercises its power and fulfills its responsibility is through the policies it establishes. These policies are necessary for effective school governance and management and are interrelated. The policies of the school district set the foundation and basic commitments of San Diego City Schools, its view of people, goals, and philosophy.

Policies made by the board serve to:

- Establish direction, a "guide to action."
- State a purpose or goal.
- Communicate what the board desires to achieve and why.

- Provide a rationale and framework for specific requirements.
- Establish basic controls and assign authority or general responsibility.

The development of policy is a dynamic process, responsive to changing problems, issues, and needs. Thus, new policies are developed and previous policies reviewed and revised as necessary.

This document is a complete reference to district policies. All inquiries should be directed to the Administrative and Legislative Services Office, San Diego City Schools, 4100 Normal Street, Room 2111, San Diego, CA 92103-2682 or to (619) 725-7086.

II. Policy Statements

The operation of the school system requires the Board of Education to establish policies for sound, effective and efficient educational and business practices. The board of San Diego City Schools has established policies that are contained in this Policy Manual and are organized according to categories in the classification system of the National School Boards Association. There are 11 categories or sections; a short description of each follows.

A. School District (p. 4)

The policies in this section provide the setting and context for all other policies. School district policies are the structure and foundation of public education and of the district. They are the principles that underlie the operation of the district schools.

B. Board of Education (p. 11)

This section defines the bylaws of the board—its organization, practices, procedures, and ground rules for conducting meetings. Guidelines for some of the board’s closest relationships are given—relationships with the superintendent, attorney, advisory committees, consultants, and the media. Policies on the policymaking process are also set forth in this section.

C. General School Administration (p. 20)

Policies on the management of the district and its schools are delineated in this section. The district’s administrative structure, line/staff relationships and policy implementation are topics included in this section.

D. Fiscal Management (p. 26)

Issues related to the management of school district funds are addressed in this section, including policies on budget and the use, control and accounting of funds.

E. Facilities (p. 31)

These policy statements concern planning, construction and naming of new facilities. Related activities such as disposition, lease, sale and/or alternative utilizations are included.

F. Instruction (p. 37)

The policies in this category deal with the instructional program: goals, basic programs, special programs, activities programs, instructional arrangements and resources, curriculum development, guidance, academic achievement, and testing. The policies in this section, more than any other, will reflect the school system's and school board's mission.

G. Support Services (p. 66)

Noninstructional services and programs are covered by policies in this section. They include security and safety program, buildings, grounds and equipment management, material resources, transportation and food services, and communication/information systems.

H. Students (p. 74)

These policies deal with students: admissions and attendance, rights and responsibilities, conduct and discipline, student safety and welfare, and other student matters.

I. Personnel (p. 88)

The school board's personnel policies are contained in this section for all classifications of staff. Issues addressed include work schedules/assignments, ethics, evaluation, health and welfare, grievance procedures, leaves and absences, and termination/retirement.

J. Negotiations (p. 106)

These policies pertain to the process of negotiating with employee organizations.

K. Community Relations (p. 109)

This section provides policies on relations with the general public and with community organizations and public agencies. There are policies on the school system's public information program, community involvement in decision-making, use of school facilities, public solicitations, and public complaints.

SCHOOL DISTRICT

A-3600 The Board of Education will not tolerate subtle, overt, or covert acts of racism— institutionalized or personal and within or between groups—that debase individuals or groups.

Accordingly, it is the responsibility of staff, students, and parents to make immediate reports of racist acts as detailed in the antiracism procedure. It is the duty of administrators to take appropriate ameliorative action when such acts are reported.

A-3700 San Diego Unified School District is committed to making the educational environment for students free from sexual harassment. The district prohibits sexual harassment as defined in the Education Code to mean unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature, made by someone from or in the educational setting.

The district prohibits conduct that has the purpose or effect of having a negative impact upon the individual's work or academic performance, or that is sufficiently severe, persistent, or pervasive to create an intimidating, hostile, or offensive work or educational environment.

(Approved 5-11-93. Related Procedures 0112, 6290, 6295.)

Philosophy

A-4000 The Board of Education supports the philosophy that education, in addition to providing academic skills and knowledge, should help students to value themselves and others, to realize the development of their talents and aspirations, and to become contributing members of society. The board is committed to the following beliefs:

- a. All children will learn and show academic gains every year of instruction.
- b. All children benefit from a quality, integrated experience.
- c. The amount of instructional time spent by students on their studies can make a difference in achievement.
- d. School experiences and education do make a difference in the future lives of children.
- e. A high level of instructional quality can be maintained even in an environment of decreasing resources.

SCHOOL DISTRICT

- f. Students learn at different rates and in different ways. Dropout prevention practices and other differential provisions should ensure opportunity for completion of educational programs.
- g. Closing the achievement gap between racial/ethnic groups does not cause or result in the lowering of academic standards.

(Approved 3–88. Revised 5–11–93. Related Procedures 4000, 4050, 4097, 4105, 4106, 4110, 4230, 4720, 4755, 4760, 4766.)

A–4500 The Board of Education believes that children and staff of all races and ethnicities benefit socially, politically, and economically from integration programs. The district's integration programs promote positive race/human relations, solicit the exchange of ideas, and respect diversity of opinion and culture. All students have the right to a quality education that ensures excellence in academic achievement and full participation in the democratic process. Quality in education demands equity in outcome where race, ethnicity, and gender are not distinguishing variables of student success.

The board believes we have an obligation to treat all children in an equitable manner (just, impartial, and fair). In order to ensure equity for all students the board has adopted the following goals for integration:

- a. Improve student achievement and ensure equitable outcomes among students of all racial and ethnic groups.
- b. Integrate students to reflect the racial/ethnic balance of the district's student population.
- c. Provide equitable access to education programs and services for all students.
- d. Demonstrate positive race/human relations among students and staff of all racial and ethnic groups.

The board further believes that it is the responsibility of all district employees to actively support, promote, and demonstrate commitment to integration and ensure the accomplishment of district and site integration goals.

(Approved 1–26–93. Related Procedures 4018, 4105, 4106, 4107, 4235, 4236, 4262, 4310, 4311, 4312, 4475, 4585, 4587, 5411, 6020, 6135.)

SCHOOL DISTRICT

A-4510 The Board of Education believes that leadership in integration begins with the Board of Education and includes certificated and classified staff, site administrators, and central office administrators. Integration leaders actively participate in integration programs and concentrate their efforts and resources on reaching the four goals for integration.

(Approved 5-11-93. Related Procedures 0620, 4018, 4105, 4106, 4262, 4310, 4311, 4312, 5411, 6135.)

A-4520 The Board of Education believes that policy-, decision-, and recommendation-making committees must reflect the diversity of the student population.

(Approved 5-11-93. Related Procedures 0106, 1100, 1320, 3105, 3300, 4230, 4475, 4505, 4605, 4815, 4816, 5330, 6215, 6400, 7030, 7226, 7610, 9055, 9060, 9062, 9066.)

A-4600 The Board of Education believes that full integration of a school is achieved when all students have equal status; receive the same high level of instruction; feel trusted, valued, and supported; and student representation in the decision-making bodies reflects the ethnic diversity of the school.

(Approved 5-11-93. Related Procedures 4000, 4018, 4050, 4097, 4105, 4106, 4107, 4110, 4230, 4235, 4236, 4262, 4310, 4311, 4312, 4353, 4475, 4585, 4587, 5411, 6020, 6135.)

A-4650 The Board of Education believes that racial isolation, occurring in communities that are either predominantly White or non-White (African American, Alaskan/Indian, Asian, Filipino, Hispanic, Indochinese, Pacific Islander), leads to the development of racial stereotypes, promotes inequitable practices, and is detrimental to the goals of the district. Racial isolation is harmful to students of every color.

(Approved 5-11-93. Related Procedures 4000, 4105, 4106, 4107, 4110, 4262, 4310, 5411, 6135.)

A-4750 The Board of Education believes that equitable access is predicated upon the belief that gaining the knowledge valued by society is a right and not a privilege. The district has an obligation to provide continuous support and information to enable students to be successful in the school system and reach their fullest potential.

Equitable access to programs and services requires the district to:

- a. Widely disseminate information on options to assist students and parents in making educational choices.
- b. Apply fair and consistent entry requirements to all.

SCHOOL DISTRICT

- c. Utilize teaching and learning practices that address individual and cultural differences.
- d. Offer challenging courses and encourage all students to enroll.
- e. Expect high levels of achievement from all students.

(Approved 5-11-93. Related Procedures 4018, 4050, 4235, 4236, 4262, 4585, 4587, 5411, 6020, 6127, 6135.)

Goals

A-5000 It is the mission of San Diego Unified School District to improve student achievement by supporting teaching and learning in the classroom. The Board of Education accepts the premise that the primary and basic purpose of the public school is to provide an effective educational program for students. Minimum provisions for the educational program are set up in the California Education Code. The district shall make every effort to provide an educational program that exceeds these minimum provisions. Every two years the Board of Education shall reevaluate the district's mission.

(Approved 3-88. Revised 5-22-2001. Related Procedures 0620, 4000, 4050, 4500.)

Commitment

A-6000 San Diego Unified School District is committed to the concept of providing the necessary resources to ensure that all students are given every opportunity to achieve at the highest level possible.

(Approved 3-88. Related Procedures 2040, 2400, 3000, 4000, 4500, 4560, 4564, 4575.)

It is, therefore, the policy of the Board of Education that:

The Board of Education, working through the administration, has the responsibility to:

E-4100 It is the policy of the Board of Education to encourage a balance between initial construction costs of new facilities and long-term energy costs while maintaining thermal comfort in the classroom conducive to a quality learning environment. To support the district's continued goal to reduce overall utility consumption, maintain thermal comfort, and comply with the California Energy Commission regulation for all new schools (Title 24, Part 2, Section 53, of the State Building Code), the Board of Education establishes the following policy:

- a. All new schools will be built based on the following:
 - (1) **Base Temperature.** The effective temperature maximum is established at 78°F as the basis for determining whether a classroom is selected to get passive thermal mitigation measures and/or air-conditioning when future funding allows. Since it is not feasible to be within this temperature all of the time, a maximum deviation of up to 10 percent of the amount of time the students are in the classroom during the summer hours is established (i.e., if students spend 200 hours in the classroom during the summer, the temperature could exceed the 78°F effective temperature by up to 20 hours).
 - (2) **New Spaces and Schools.** All new spaces and schools will have cost effective passive measures installed and be engineered so that they can be retrofitted for air-conditioning at a future date if they will not meet the above-recommended standard.
- b. Exceptions will be made for specified areas requiring air-conditioned space—performing arts, auditoriums, and TV studios at new secondary schools—and on a case-by-case basis for other spaces and/or other kinds of facilities to address air quality and/or noise pollution.
- c. Where appropriate, other public agencies that may contribute to the need for air-conditioning to mitigate reduced air quality and/or noise pollution will be contacted to assist in the costs associated with providing an air-conditioning system.

FACILITIES

- d. Planning for new construction, adding permanent or relocatable facilities, or modifying existing facilities will include consideration of the building's energy efficiency, as delineated in Title 24, Part 2, Section 53, of the State Building Code, for natural, mechanical ventilation or air conditioning as determined during the planning process.

(Approved 3-24-92. Revised 5-22-2001. Related Procedures 1570, 3105, 3115, 3410, 5330.)

- H–6050 The district recognizes the importance of providing a school environment that will strongly discourage student gang-related dress and behavior. It is, therefore, a goal for the district and for each school to create a caring atmosphere for each student which will deter such involvement.

The Board of Education finds the wearing of gang-related signs, insignia, distinctive modes of dress denoting gang affiliation, and gang-related behaviors by students constitute a substantial disruption of school and school-related activities, and regulation of student dress is necessary for the health and safety of the school environment.

In conformance with the district’s discipline policy, each school community shall establish a school dress and behavior code that will eliminate gang-related behavior.

Parents of students who wear gang-related dress will be advised that the wearing of such apparel by their children place them at risk of unintended harm.

Each school’s principal, staff, and parents shall be involved in developing any dress code policy that requires uniforms.

Schools in the district shall adopt a dress code that may include the wearing of school uniforms. A school dress code policy that requires pupils to wear a uniform shall not be implemented with less than six months’ notice to parents of students currently enrolled. The school shall make available resources to assist economically disadvantaged pupils who cannot afford a uniform. The school dress code and uniform policy shall include a provision that no pupil shall be penalized academically or otherwise discriminated against nor denied attendance to school if the pupil’s parents choose not to have the pupil comply with the school uniform policy.
